

Revolving Loan and Venture Capital Shortages in Northwest Wisconsin

THE CITIZENS OF NORTHWEST WISCONSIN REQUEST

The State of Wisconsin continues their support and commitment to economic development project financing in Northwest Wisconsin.

BACKGROUND

Revolving loan fund balances are at an all-time low in Northwest Wisconsin. This includes both local and regionalized funding. As funding levels decline there is increased hesitancy in distributing remaining funds in the event a more urgent or emergency project comes up in the future.

Regional venture capital levels are worse off with no funds available for new business opportunities.

These and other funding sources are the result of long-standing partnerships between Northwest Wisconsin Communities and the State of Wisconsin. Continued dialogue is critical for understanding, assurances and enhanced economic development in our region.
