Young career bound people should be educated in these opportunities both within Douglas County and throughout the state.	Table 7 - Anne Porter	Agency & Legis	Education		Workforce Dev Economic Development

State Support for Non-Motorized Trails	Wisconsin's support for state and local non-motorized trails is inadequate to maintain existing trail assets. A 2009 legislative study committee identified this deficit. As the states fiscal situation improves, this shortfall should be revisited. Hiking is the #1 outdoor recreation activity nationally, and silent sports continue to grow as a northern Wisconsin tourism attraction.	Table 3 - Peter Nordgren	Agency & Legis	Recreation	Tourism	
Port Sustainability and Growth with Support and Potential Incentivizing	Port utilization could be grown for shipping within the great lakes and container (potential) smaller ocean-bound vessels for WI manufacturers. How can we make our port serve the market of the great lakes sustainably? Expand beyond coal and grain dependencies? How can we incentivize the use of our port to be attractive and overcome seaway costs and use the port as a viable shipping/receiving port for many industries? Expanding shipping to Canadian market?
