

City of Superior Entry Ways, US Highways 2 and 53

The Citizens of Northwest Wisconsin Request

That we have a discussion about the future of the entrance to the City of Superior on Highways 2 & 53.

Background

As the local WISDOT officials are looking at the East 2nd Street, (US 2 & 53), project, we request that as part of that project WISDOT takes a serious look at how can we enhance and beautify the entrance to our community. As we travel around the state and look at other DOT projects this is being accomplished in many communities. We are just asking for the same for our community.
